## About This Game

Explore the galaxy with math! Lightwire is a strategy game in which players harvest energy by firing lasers in cunning ways to get the highest score.

Lightwire is a fully-voiced cinematic puzzle game that challenges the mind and ignites the imagination.

In Lightwire, you play as a young weapons engineer trying to save your dying home planet. You must harvest enough energy and resources from various energy nodes throughout the galaxy in order to satisfy the growing demand back home.

Lightwire is made by nonPareil Studios. We are a studio that provides better futures for adults on the autism spectrum.

One would think a puzzle game to put boxes in specific places were going to be difficult, or at least increasingly so, but the truth is this game sometimes have such easy levels its easy to think it was made just to cheat you out of a the little amount it cost. What I mean is that some levels have boxes positioned such that you cannot fail on it, you can basically only push it the correct way...

Then some levels like one every 10 levels have one you have to think a little about but its not like its trial and error until you get it right, its more like a simple mistake, on a move, which forces you to restart the level.

I just can't recommend this to anyone.. nice game !. I find the videos to be informative and practical. There's a lot of information, and you'll have to rewind a lot... I've been using the program for years, and this is bringing some new points to light. Anything not new is a good review.. This game is EPIC fun. Brings back the old Joust days with a modern twist. I used this as a party game and we ended up playing for hours. Get 4 controllers and challenge your friends.

the basketball mode is incredible. Get the ball through the rings, so simple yet so challenging when youre friends are trying to hijack you.

I would highly recommend this to anyone interested in local gameplay and connecting with friends.. You cant save in the game, if you get busted you have to start from day 1, and to keep the pictures you have revealed you have to go back to the main menu which means restarting from day 1 again since you cant save.. Best game of 2017

F?

แรกๆดีหลังๆเหี่ยวอะไรว่ะ. This game is very good. Even though you only have the option to control the ball with the arrow keys or WASD. The background colors of each maze are very nice and they go well with the white of the maze. there is one draw back though... once you get pretty good at the mazes they dont get any harder and lack a increase in difficulty. besides that the game is pretty good!. Not a good idea when trying to complete a dissertation.. This is a perfectly decent game. The gameplay is just nuanced enough to be fun; there are only two weapons and one power-up; however, they're flying around the screen at every moment, and no two races are quite the same. Apparently, this was a top iOS app; I could see it as being pretty excellent for a mobile racing game. However, myriad "port-problems" do exist; sometimes, the cars pull a little bit to the left or right, and I'm not completely certain why that may be. The cars are WAY too expensive to unlock (expect 1-2 hours of gameplay PER vehicle), and every single one of them seems to have the exact same stats. Also, modifying your vehicle in ANY WAY requires 4-5 hours of gameplay; absolutely ludicrous for a new color, or new tire skin.

I wouldn't recommend this game at full price. However, if you're getting a bundle of 7-8 games for \$2.00? If you're interested at all in racing, I'd say this is worth a solid 1-2 hours of mildly amusing gameplay. It's definitely a good bundle toy.

Cheers!. I am Brazilian and the game aqw is incredible very good and addictive now I launch the 3D this very cool new gameplay and very fun the game. I really liked the mobile game. It remains one of the best indie games I've played to date. This version is literally just a direct upgrade. Upgraded art style and upgraded design. My only complaint is that the game is impossible with only a mouse and keyboard. The controls are clunky and hard to complete with speed. If you use a controller, the game is even better than the mobile version.
